Dear \_\_\_\_\_:

The *No Child Left Behind Act* (NCLB) requires schools to notify parents when your child has been taught for four (4) consecutive weeks or more by a teacher who does not meet the highly qualified requirements.

I am notifying you that your child's teacher Mrs. Cotton does not currently meet the Kansas State Department of Education requirements for "highly qualified" teachers.

Mrs. Cotton holds a temporary Kansas license for elementary education and has 2 years of accredited elementary teaching experience in our school district, but lacks a test required by the state of Kansas to become highly qualified. Mrs. Cotton is completing the testing requirements this school year. Upon completion she will become "highly qualified." I assure you that this is only a formality and does not reflect sub-standard education, in fact I would not have entrusted your child's education into her hands if I did not have complete confidence in her teaching ability coupled with the instructional support she receives here at William Allen White.

If you have any questions, or concerns about your child's educational progress, please feel free to contact me at (913) 627-6261.

Sincerely,

Mike Jones, Principal  
William Allen White Elementary School
