

DRAFT - KCKPS Assessment and Survey Calendar 2008-2009 - DRAFT

Notes of Importance

These dates provide guidance for school planning but it is important to remember that they may change. Please refer to the most recent version of this calendar, posted on the district website.

Federal and state regulations require that ALL students must be tested in statewide and district assessments. Consequently, in August schools should discuss with their special education teachers procedures for assessing seriously disabled students. Schools should meet with ESL staff to discuss the appropriate assessment option for students with limited English proficiency.
