

KCK Board of Education Honors October Employee of the Month

The Kansas City, Kansas Board of Education honored June McKeever, nurse at White Church Elementary School, as Employee of the Month at their meeting on October 11.

June McKeever was nominated by Bruce Haber, principal. In his nomination he said, “June is a top-notch, dedicated nurse. She performs her duties admirably. Her work habits ensure that all of the kids are taken care of as quickly as possible so that they can either get the medical attention they need or get back to class with minimal amount of instruction time lost. June has done everything she can to keep the staff informed of healthy lifestyle information . . . She has started a walking club and made efforts to get all staff to participate in some type of physical activity. June is usually one of the first ones here and one of the last ones to leave.”
